2020.... OK, next up.... Hurricanes!

Here we go. We all know there's a big storm in the Gulf. We've been here before and know what to do.

-Our Police and Fire Depts. are fully staffed and will be going into Emergency mode if the weather worsens. They will be prepared to keep roads cleared and all emergency services going should we need anything.

-Memorial Villages Water is prepping up to keep our water system safe and running.

**\*Please take time to do a few things:**

-Check on your elderly neighbors to see they have what they need.

-Clean out your yard drains from leaves, sticks and anything that would clog up and flood your property, and send the kids to clean the neighbors too.

-Remove any dead/leaning trees/limbs that might fall and damage your house.

-Remember to call the gas generator guy after the storm passes and get the generator for next time.....

OK, we got this, been there, done that. Take care of your neighbors and we'll be fine.

It's not like the kids are missing school or anything....

Keep Calm and Carry On.

Jim Pappas

Mayor
