

City of Hunters Creek Village Phone: 713-465-2150 www.cityofhunterscreek.com

Dear Residents,

We are writing to remind everyone about the proper disposal of tree debris, particularly in relation to the recent cleanup efforts across our city.

The City has invested considerable effort to clear all streets for safe and efficient traffic flow, particularly for emergency services.

It has come to our attention that some residents have been placing tree debris, including tree stumps, directly on the concrete driving surface of public streets. This practice poses significant hazards to traffic flow, including emergency vehicles that may need unimpeded access.

If any tree debris is currently on the street, we kindly request that you remove it immediately to avoid further complications. Any tree debris left on the street surface will not be picked up by the County. **Should the debris not be removed promptly, the City will be required to remove it at the owner's expense.**

Proper Procedure:

1. **Placement:** Please DO NOT place any tree debris, especially tree stumps, on the concrete or asphalt driving surface of public streets.
2. **Location:** ALL tree stumps and debris should be moved into the public right of way that is located behind the curb.

We appreciate your cooperation in ensuring our streets remain clear and safe for everyone. If you have any questions or concerns regarding this matter, please feel free to contact City Hall at 713-465-2150.

Thank you for your attention to this important matter.
