OK, thanks for the calls, texts, and emails....

I know Voss Rd is a bit of a mess. We're replacing the final stretch of road panels that were in need of repair, and the work will be complete in a three or four weeks.

As I've said many times in my community notifications, the County is behind schedule on the total repaving of Memorial Drive, and the section of Memorial by Thamer is very messed up. I didn't want to spend money on it, as it will be repaired shortly, but the delays caused us to bust it out and fix it for the short term. The bad stretch was causing drivers to either straddle the bad part or drive into the oncoming lane to avoid it. Anyway, we're fixing it over the next several days, and traffic will be detoured accordingly. I almost had a head-on collision yesterday as someone heading westbound ignored the detour signs.

Please heed all road signs and keep us all safe. This dry patch of weather will speed up all of our projects, so that's good news.

I know the construction is an inconvenience, but we're doing our job in keeping our roads in tip-top condition. Sorry for the hassle, it will be over soon. Just in time for Memorial Drive to be torn up completely.

On a Happy note, Lindenwood/Shasta/Pineland total redo is complete (except for some ditch work) and looks spectacular! For those haters out there, and you know who you are, we told you it would look great, and it does. Thank you for your patience and understanding throughout the ongoing improvements on the street. Your forbearance has been invaluable, and we greatly appreciate your cooperation. This street will look great for years to come!

Happy Fall.

Jim Pappas

Mayor
