HELLO SPORTSFANS,

Quick update:

-As we all know by now, the Memorial Drive project is well underway. I had no idea we had so many roadway experts and engineers living in our Village! The County has ground-up the former blacktop roadway from Lindenwood to San Felipe and has been repairing the sub-base where needed, so it doesn't fail in the future. That has taken almost two weeks to complete, which is why it looks like no work is being done.

Ok, now that they are done with that, the black, sticky, tar-like adhesive is laid down, and the new asphalt will be laid on top of it. If possible, please avoid this area to the extent possible. The new asphalt is projected to be finished this week up to Voss Rd. Then they backfill the edges of the road, level out the rough spots, stripe and paint, and we're done! Total estimates projected to be done in 2-3 weeks, which is a month ahead of schedule. Good news is we've had little to no rain to slow it down...bad news is we really need the rain.

All I care about is our boundary, which is Lindenwood to Green Bay. Although they are going all the way to San Felipe/Memorial, that's Piney Point's problem.

Stay out of the black sticky stuff, listen to the flagmen and be patient, we'll be done very soon, and it will be Beautiful!.... By the way, did I say the County's paying for this?....Yup, thanks Commissioner Tom Ramsey!!

Happy Spring!

Jim Pappas

Mayor
