Good Citizens of Hunters Creek.....I'm Baaack....

Hope all's well, the first cold front's here, it's down to 98.6 degrees outside...get out and enjoy! We're over a month Post Harvey and we've got some housekeeping items to get done so here goes:

-ALL of our flooding/Harvey trash has been picked up for over a week now. Watch the nightly news or drive west to see what a big deal that is, as trash is still piled up all over town. Kudo's to our City Administrator Tom Fullen, as he incessantly begged/badgered/harassed/bribed/threatened Harris county on an Hourly basis and we provided the Trash haulers lunch daily to keep them here and working. They will be back as early as next week in case any more debris needs hauling, so please let us know at City Hall if you have more storm/flooding debris to be picked up.

-Our new fantastically beautiful Street signs are being put up as we speak. Minimum of 10 per week, hopefully more. After much discussion, we've decided to offer our existing former street signs to anyone who may want them for a \$100 per sign donation. All proceeds will go towards hiring additional workers to install the balance of the signs faster. We're using our two employees now and they're going as fast as they can while still doing their normal maintenance jobs. First come, first dibs on signs, just call City Hall or email Tom Fullen at tfullen@cityofhunterscreek.org and tell him what street sign you want and we'll save for you. We'll collect funds as signs are dispersed. Great for a nostalgic touch in your kid's dorm room, game room, Man Cave, garage, and bathroom, whatever.....

-Our last exclusively Hunters Creek CHL License to Carry course is tomorrow, Wed. at City Hall. After that, we open up to all the Villages and it will be very crowded, so get it done if you want it. For more info call Randy Woodham at 713-818-2509 to register. Our "practical tactical" class last month was well attended also, and this will be offered again in November. This teaches situational awareness and protection

tactics, valuable for everyday city living and all the attendees loved it. Great for high school and college kids as well.....

-Saturday Oct. 21st First Congregational Church is hosting Oktoberfest right after the Farmer's Market. German food, Beer, Music and festivities, another notice to follow....

-Sadly, I've gotten many calls and emails saying our "Village Idiot" is back at it, anonymously putting flyers on doors and mailboxes filled with more fake news, this time about Hedwig Villages proposed Drainage, claiming another "conspiracy" that they will flood us. We suspect same guy who's doing anything possible for an audience, including taking advantage of a Hurricane and the worst flooding since Noah built the Ark to seem relevant. We take and have always taken 100% of Hedwig's water. Nothing will change. Our Engineers and theirs are working together to insure such. We have a great working relationship with Hedwig and are working with our neighbor to insure our drainage is protected. Our Council, staff, engineers and I are all over this topic....we don't need ill informed, false information and fear tactics being spread to garner votes. Remember the RV/boat storage?...High rise on Voss?...building on I-10 about to start construction last year?.....we suspect same guy....no news here, if there was, I'd tell you.

OK, that's it. You're up to speed. Go Astros and see you at the Farmer's Market and Oktoberfest!

Jim Pappas, Mayor
