Hello New Astro's fans....and don't act like you cared before, because you didn't....I didn't.....

First we survived Harvey, who would have thought the Astro's would finish us off with the sleep deprivation and heart attacks the past few games have caused.....

OK, 33 out of 180 of our beautiful new street signs are installed. Pifer, Creekwood, and Beinhorn are done and spectacular. Memorial Drive is next week, then we will begin on the north/south and interior streets. At this rate we'll be done by Christmas. We've sold 47 of our old signs, so if you want to get yours, contact Tom Fullen and see if it's still available.....what a great Christmas gift, and only \$100!

Last night our 1 year "new", digital bad mama, traffic light controller box at Beinhorn and Voss got pulverized by a driver. Lights were out for a few hours but we got them back up and running....slowly. Good news, driver is fine....bad news the car won and box was totaled...poor guy looked like a gutted R2D2...wires hanging out, all smashed up...lights fading....buzzed a couple times then died..... Custom built for our times and traffic. So we're investigating costs now and having another one built. Good news, Driver's insurance is paying, bad news it will be as long as a few months to get it built, as it's a custom job. I ask you please bear with us as there will be issues with short lights and long lights and all of the issues we had before we went to the new digital box. We are doing everything possible to expedite the process, so please be patient.

Don't forget the "License to Carry handgun" class, at City hall, Nov. 15th is almost sold out, so sign up by emailing the instructor Randy Woodum rcw@allservicescorp.com Also a great gift, if you don't buy them a street sign.

OK, be patient with the lights, we're headed to Thanksgiving, and GO ASTRO'S!.....
